

“Big” IPD Smoothwall Hopper Silos

Columbian TecTank manufactures more IPD (industrial process design) hopper bottom silos for the storage of dry bulk solids than any other supplier. The large industrial silos are available from 30' to 47' diameter and store up to 150,000 cu. ft. Specifying engineers identify the following factors that govern their decision to select a CTT silo:

Available hopper slopes: 45, 50, 55, 60, 65, 70 degree
 Standard diameters: 30', 32', 38', 42', 47'
 Capacities: Up to 150,000 cubic feet

Spec. Engr. Request CTT Response

- | | |
|-----------------------|--------------------------------------|
| Life-Cycle Cost | – lowest |
| Low Maintenance | – baked-on coatings |
| Product Purity | – leak/contamination free |
| Flow Reliability | – flow promotion coatings |
| Environmental Concern | – no field painting |
| Future Requirements | – easily modified / can be relocated |
| Construction Cycle | – shortened timeline |
| Total Installed Cost | – lowest |

Cement
 Fly Ash
 Lime
 Misc. Minerals
 Chemicals
 Dried Sludge

Specifications on similar type projects can be generated within one day, with standard tank quotations provided within 3 days. Typical approval drawings are available within 2-3 weeks. Based on a customer two-week review process, materials can arrive at the job site within 10 weeks of receipt of order.

Give us a call and find out why repeat customers have made CTT the #1 tank of choice in “Bulk Solids” storage.

Quality storage containment with unmatched field performance . . . Go with the Leader!
