Bldg. B
Amite, LA 70422

Project background

This facility for lime receiving, processing, storage and shipping features a wide variety of silo configurations, all designed and supplied by Columbian TecTank. Under continuous expansion since 1983, the facility has kept pace with the growth of Falco Lime. Today, Falco Lime is one of the leading suppliers of quicklime and hydrated lime, serving such diverse industries as water and environmental waste treatment, pulp paper, sugar refineries, soil stabilization, scrubbing stack gases, acid neutralizations, and building materials such as mortar and plasters.

Capabilities shown here are listed below:

2101 S. 21st Street
Parsons, KS 67357
Phone: 620-421-0200
Fax: 620-421-9122
